**Add environmental
value to your products!**

Trees4Trees.ORG

**Renewing the environment and empowering local
communities through reforestation and education.**

ABOUT TREES4TREES

We are a non-profit foundation that supports ecosystem health and human well-being.

Through our social forestry program, we involve and empower local communities and businesses, helping them to restore forests and revitalize the environment.

Here are some of our biggest achievements so far:

+ 15 million trees
planted on Java (2024)

+ 85,000 local families
engaged in community forestry

+ 150 companies
involved in replanting trees
and supporting communities

Trees4Trees tagged product
shipped to **+ 50 countries**
worldwide

TREES4TRADE

Trees4Trade is an easy and effective way to add environmental value to your business by linking a live planted tree donation to your product or service.

WHY JOIN TREES4TRADE?

Consumers today hold the companies they deal with to higher standards.

Given the escalating impact of climate change, businesses of all sizes have a role to play in addressing this issue.

Trees4Trade provides a simple way for your company to demonstrate its responsibility and commitment to the planet's sustainability through impactful and verifiable actions.

HOW IT WORKS

We plant trees on behalf of your company and provide an interactive online map to share with your customers.

It will showcase the trees you plant with your company's branding, including your logo and customized messaging.

You will receive tree tags to attach to your products, each with a unique WIN (World Identification Number) and a QR Code. This allows your customers to visit their trees and learn about the local farmer growing them.

Let's Try
Visit your trees!

Scan the QR code with your phone or visit our website trees4trees.org and enter this example WIN Number
