

Trees4Villages

**Adopt a village by planting trees and
empowering local communities**

TREES4TREES.ORG

**Renewing the environment and empowering local
communities through reforestation and education.**

TREES4VILLAGES

It is an 'Adopt a Village' program where your company or organization can support a village to enhance the environment in the surrounding area and uplift the economic well-being of the local community.

The **Trees4Villages** program engages local communities in planting trees and other high-value plants. It also provides them with capacity-building opportunities, including farmer training in forestry and good environmental practices, and workshops on utilizing village resources to boost their economy. For example, workshop on producing organic fertilizer.

HOW WE WORK

Trees4Villages focuses on community forestry, a key strategy in promoting sustainable forest management and reducing poverty in rural areas. Projects typically run for five years, aiming for positive outcomes, including increased forest cover, watershed improvement, and enhanced local farming economy.

By adopting a village, you get positive media exposure, inspiring stories and beautiful photos. You can also participate in volunteer planting days and see your company logo on our planting sites and road signs.

IMPACTS

The program is designed to deliver various impacts both **short-term** and **long-term**.

SHORT TERM

Reduce erosion

Transition local farmers to higher value crops

Clean up rivers

Build capacities in the local communities

LONG TERM

Carbon capture

Improve water retention in the area

Improve habitat for local flora and fauna

Increase village's productivity and job opportunities to retain the younger generation in the village

SPONSORED PROJECT BENEFITS

Positive recognition in your marketplace

A forest planted with your branding on it

Branded planting maps that you can share with your customers

Stories, photos and good news promotional materials

Verifiable confirmation that the trees are planted

Comprehensive reports of the results

“The best time to **plant a tree** was 20 years ago. The second best time is **today**.”

HOW TO JOIN

Contact us

Via WhatsApp, phone, or email.

Set up Meeting & Discuss Goals

We will discuss your goals, schedule and budget

Project Proposal

We will identify potential project areas and develop a preliminary proposal.

FAQ

Can we visit the sponsored forests?

Yes, contact us and we will arrange necessary permissions with the local residents to visit your trees.

.....

Can we do volunteer planting events?

Yes, you can include a tree-planting event in the program and involve your staff, clients, or partners as tree-planter volunteers.

.....

Who owns the trees we plant?

The trees we plant will be owned by the landowner where the trees are planted, along with any benefits they may derive from their trees.

.....

When are the trees planted?

To maximize survival rates and minimize maintenance costs, we try to plant during the rainy season (December-March).
